

# Indian Public Health Standards (IPHS) Maharashtra

## About IPHS

Indian Public Health Standards are a set of standards envisaged to improve the quality of health care delivery in the country under the National Rural Health Mission.

## Genesis of IPHS

- NRHM aims to -
  - Reduce child and maternal deaths,
  - Stabilize population and
  - Ensure gender and demographic balance
- Health services required restructuring of the health care delivery mechanism. So, NRHM proposed up gradation of health institutions to achieve a level of set standard called **Indian Public Health Standards (IPHS)**

## Need of IPHS

- Quality assurance
- Quality management
- Effective, economical and accountable health service delivery system
- Optimal level of services

## IPHS-Priority areas

- Space
- Building
- Manpower
- Instruments
- Equipment's
- Drugs
- Monitoring and evaluation
- Standards set under IPHS are flexible and can be revised time to time as per need and at various level of up gradation process

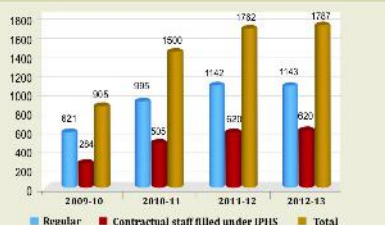

## IPHS Maharashtra

- Availability, sustainability, quality and accountability in health services are prime objectives of health system in Maharashtra.
- IPHS Maharashtra has been focusing on SCs, PHCs, RHs, SDHs and District Hospitals individually to develop them into fix benchmarks of infrastructure including building, manpower, equipment, drugs, and quality assurance.
- Goal is to serve the populace with acceptable, affordable and optimum standards.
- Most importantly, standards are continuously being revised and added as per need and progress that been scrutinized by strict monitoring and evaluation system which makes Maharashtra health administration unique.

### Year wise up gradation of institutions under IPHS Maharashtra

Sr. No.	Year	Target	No. of Institute Selected	Achieved FRU / 24*7 status	%
1	2012-13 (up to Feb.)	Hospital	220	157	71.36
		PHC	658	425	64.59
2	2011-12	Hospital	307	161	52.44
		PHC	1067	687	64.39
3	2010-11	Hospital	352	108	30.68
		PHC	1093	424	38.79
4	2009-10	Hospital	329	77	23.40
		PHC	908	377	41.52

### Year wise Availability of Specialists in IPHS Hospitals

## Special projects under IPHS - Maharashtra

### A Solar Photo Voltaic Systems (Solar Power System in 325 PHCs)

- To Provide un-interrupted power supply to IPHS health institutions for quality health care and to make Primary Health Centers in the tribal Districts self-sufficient in the area of energy requirement so that they will be able to provide better health services to the poor people in the society.
- In Primary Health centers, to maintain cold chain required for vaccination, and also to cater critical electrical load of the PHCs, it was decided to provide Solar Photovoltaic systems.
- Till date 325 PHCs have been installed with solar system.

### B SNCU Development and Strengthening

42 SNCUs across Maharashtra are being strengthened by IPHS, Maharashtra.

DH Thane, Maharashtra

### C Manpower Strengthening (Specialist availability ensured through contractual specialists)

644 contractual specialists are appointed by IPHS across Maharashtra under gap filling of manpower under IPHS.

### Rat proof cabinets supplied to 13 DHs

Rat proof medicine cabinet at Pune DH

### D Blood Storage Facility (Development and strengthening)

174 BSUs across Maharashtra are strengthened under IPHS Maharashtra

### Equipped labor room PHC- Rani, Jalna

### E Dialysis Units (Development and strengthening)

31 dialysis units across Maharashtra are being strengthened by IPHS

## IPHS in Tribal Maharashtra

Upgradation status of IPHS institutes in Tribal districts of Maharashtra

Institutes in tribal districts	2011-12	2012-13	2013-14
