D.O No. Z-18015/26/2020-NHM-II

Dated the 7th November 2020

Dear Colleague,

As you are aware, Quality improvement of our public health facilities is a major thrust area under the National Health Mission that is undertaken as per the LaQshya and NQAS initiative. As part of this, periodical assessments of Health Facilities, Labor rooms and Maternity OTs are required to be undertaken to identify the existing gaps and also to plan for undertaking the appropriate actions for addressing the same, so that maximum number of facilities get certified under NQAS and LaQshya.

Quality checklists are voluminous, and manual calculation is prone to errors, besides finalisation of final score takes considerable time and efforts.

For seamless assessment and score generation, an App, known as 'Gunak' has been developed and is available on the Google play store and also on IOS. It is expected that we quickly move from paper based check-lists to IT enabled assessment to ensure efficiency in these assessments.

You are requested to issue required instructions to all concerned so that all future assessments are undertaken using 'Gunak' App.

In case the State encounters any difficulty in using this App, Dr. Rashmi Wadhwa, Consultant – QI may be contacted (wadhwa.rashmi86@gmail.com).

With warm regards

Yours sincerely,

(Vandana Gurnani)
