D.O: NHSRC/13-14/QI/01/QAP

Dated 13th July 2019

Dear All,

Under the National Quality Assurance Programme, qualified professionals having minimum 10 years of experience are empanelled to undertake NQAS certification assessments of Health Facilities after receipt of such requests from the States. Presently such professionals are empanelled as NQAS assessors, out of which 241 are working within the states' health systems.

It is observed that these assessors have fairly good understanding of the NQAS implementation. During course of undertaking certification assessment in other states, they have also acquired valuable hands-on experience of NQAS implementation.

The State is requested to consider allocating few health facilities to each of the NQAS External Assessor for mentoring health facilities to enable them in attaining the NQAS certification. Such Assessors may be extended facilitatory support for travel etc under National Health Mission (NHM)

After getting NQAS certified status, efforts of these mentors may also be acknowledged along with efforts of all functionaries of certified health facility.

with kind regards,

Yours Sincerely,

7
