

Road Map for MusQan Certification

Shri Vikas Sheel
Additional Secretary and Mission Director
National Health Mission
Ministry of Health and Family Welfare

Tangible outcomes of the scheme

- Reduction in preventable mortality and morbidity among children below 12 years of age
- Ensure provision of quality child-friendly services in public health facilities
- Adherence to evidence-based practices and standard treatment guidelines

Institutional framework-in place

National Level

Central Quality Supervisory Committee (CQSC)

State Level

State Quality Assurance Committee & Units

District Level

District Quality Assurance Committee & Units

Facility Level

**Quality Improvement Teams/
Departmental Quality Circle**

Synergy between Quality Assurance & Child Health teams

The existing framework for quality assurance i.e., State Quality Assurance Committee (SQAC), District Quality Assurance Committee (DQAC), and Quality Team at the facility level, would continue to support implementation of 'MusQan'.

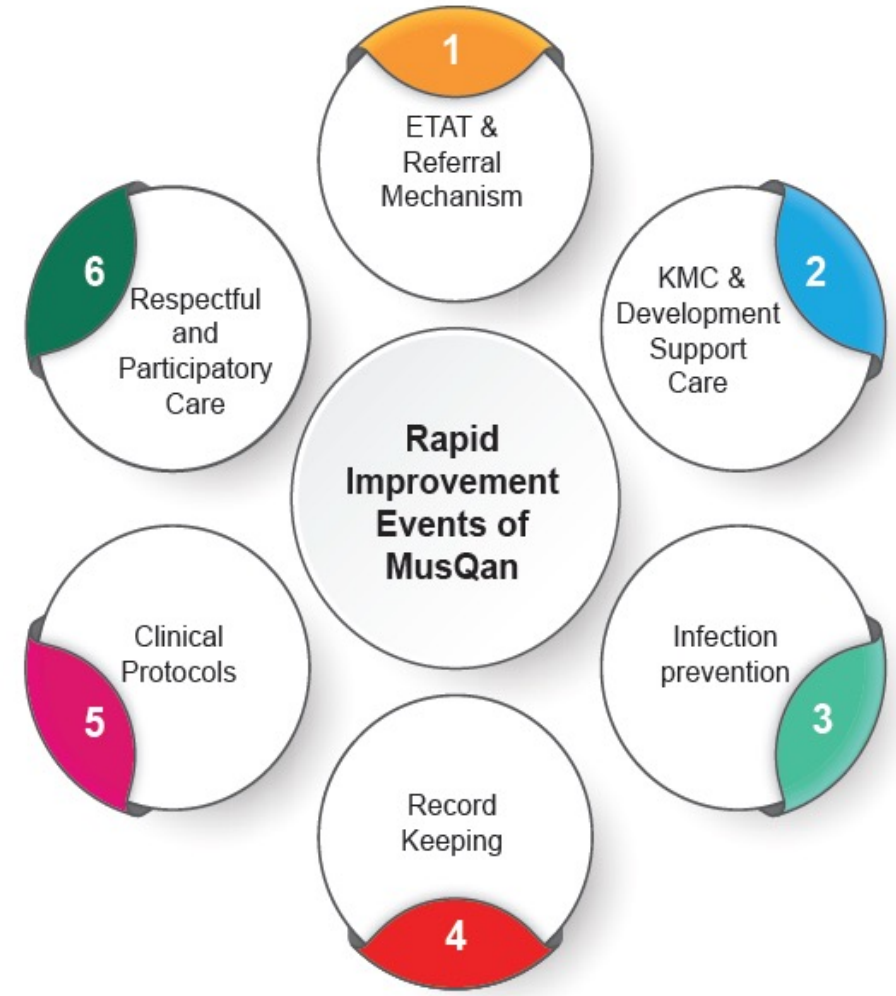

Joint responsibility for Nodal officers of QA and child health team for assessments and validation of indicators.

Assessing Quality of Care

Baseline Internal Assessment utilising NQAS checklists at all health facilities as per MusQan scope

Reporting of Indicators on *GUNAK portal* as per Annexure-A under MusQan guidelines

Planning interventions and Rapid Improvements Events

MusQan-Rapid Improvement Events

Phasing of facilities for MusQan certification

- *Low hanging*: SUMAN notified, LaQshya certified, and Kayakalp facilities
- Include Paediatric services under NQAS certification (Target as given in the Health Secretary's DO No. Z-18015/26/2020-NHM-II dated 01st October'21)

NHM-II targets for NQAS

DO No. Z-18015/26/2020-NHM-II
1st October, 2021

Dear Colleague,

Ministry of Health & Family Welfare has undertaken a thorough revision of Quality Assurance Framework in the Country and has finalized the revised "Operational Guidelines for Improving Quality in Public Healthcare Facilities – 2021". The Guidelines have been released by Hon'ble Union Minister of Health & Family Welfare on 17th September, 2021. Services provided by Public Health Facilities need to be bench marked against National Quality Assurance Standards which are internationally accredited by International Society for Quality in Health Care (ISQua). Formal certification against these standards assures the patients that the care delivered to them is at par with the best in country.

Ensuring Quality is also one of the focus areas of the National Health Policy (NHP-2017). The Ministry is committed to support the States/UTs in achieving the Quality certification against National Quality Assurance Standards (NQAS). Proposed targets for the State/UTs are given in Annexure-I. These targets may please be kept in mind preparing the NHM PIPs for the coming years.

For achieving these targets, you are requested to include status of NQAS certified facilities in your regular review of districts and monitoring dashboard.

In addition, following actions may be thought-of for achieving tangible progress:-

- Sensitization of District Magistrates on the Quality Assurance Program.
- Identification of the technical support institutions for harnessing their capacities for achieving quality certification for the facilities.
- Allocating targets to CMOs/Civil Surgeon (equivalent) for achieving NQAS certification of health facilities.
- Surakshit Matritva Aashwasan (SUMAN) notified facilities, LaQshya certified and Kayakalp winner facilities could be taken on priority for NQAS certification.
- Identification of individual subject matter experts who could be trained and empanelled for providing hand-holding support to the facilities.
- Strengthening the State/UT NQAS certification mechanism.
- Filling all vacant positions of state & district consultants under the National Quality Assurance Program.

Should the State need technical assistance, this Ministry/National Health Systems Resource Centre (NHSRC) may please be contacted.

Harm Legarda

Yours sincerely,

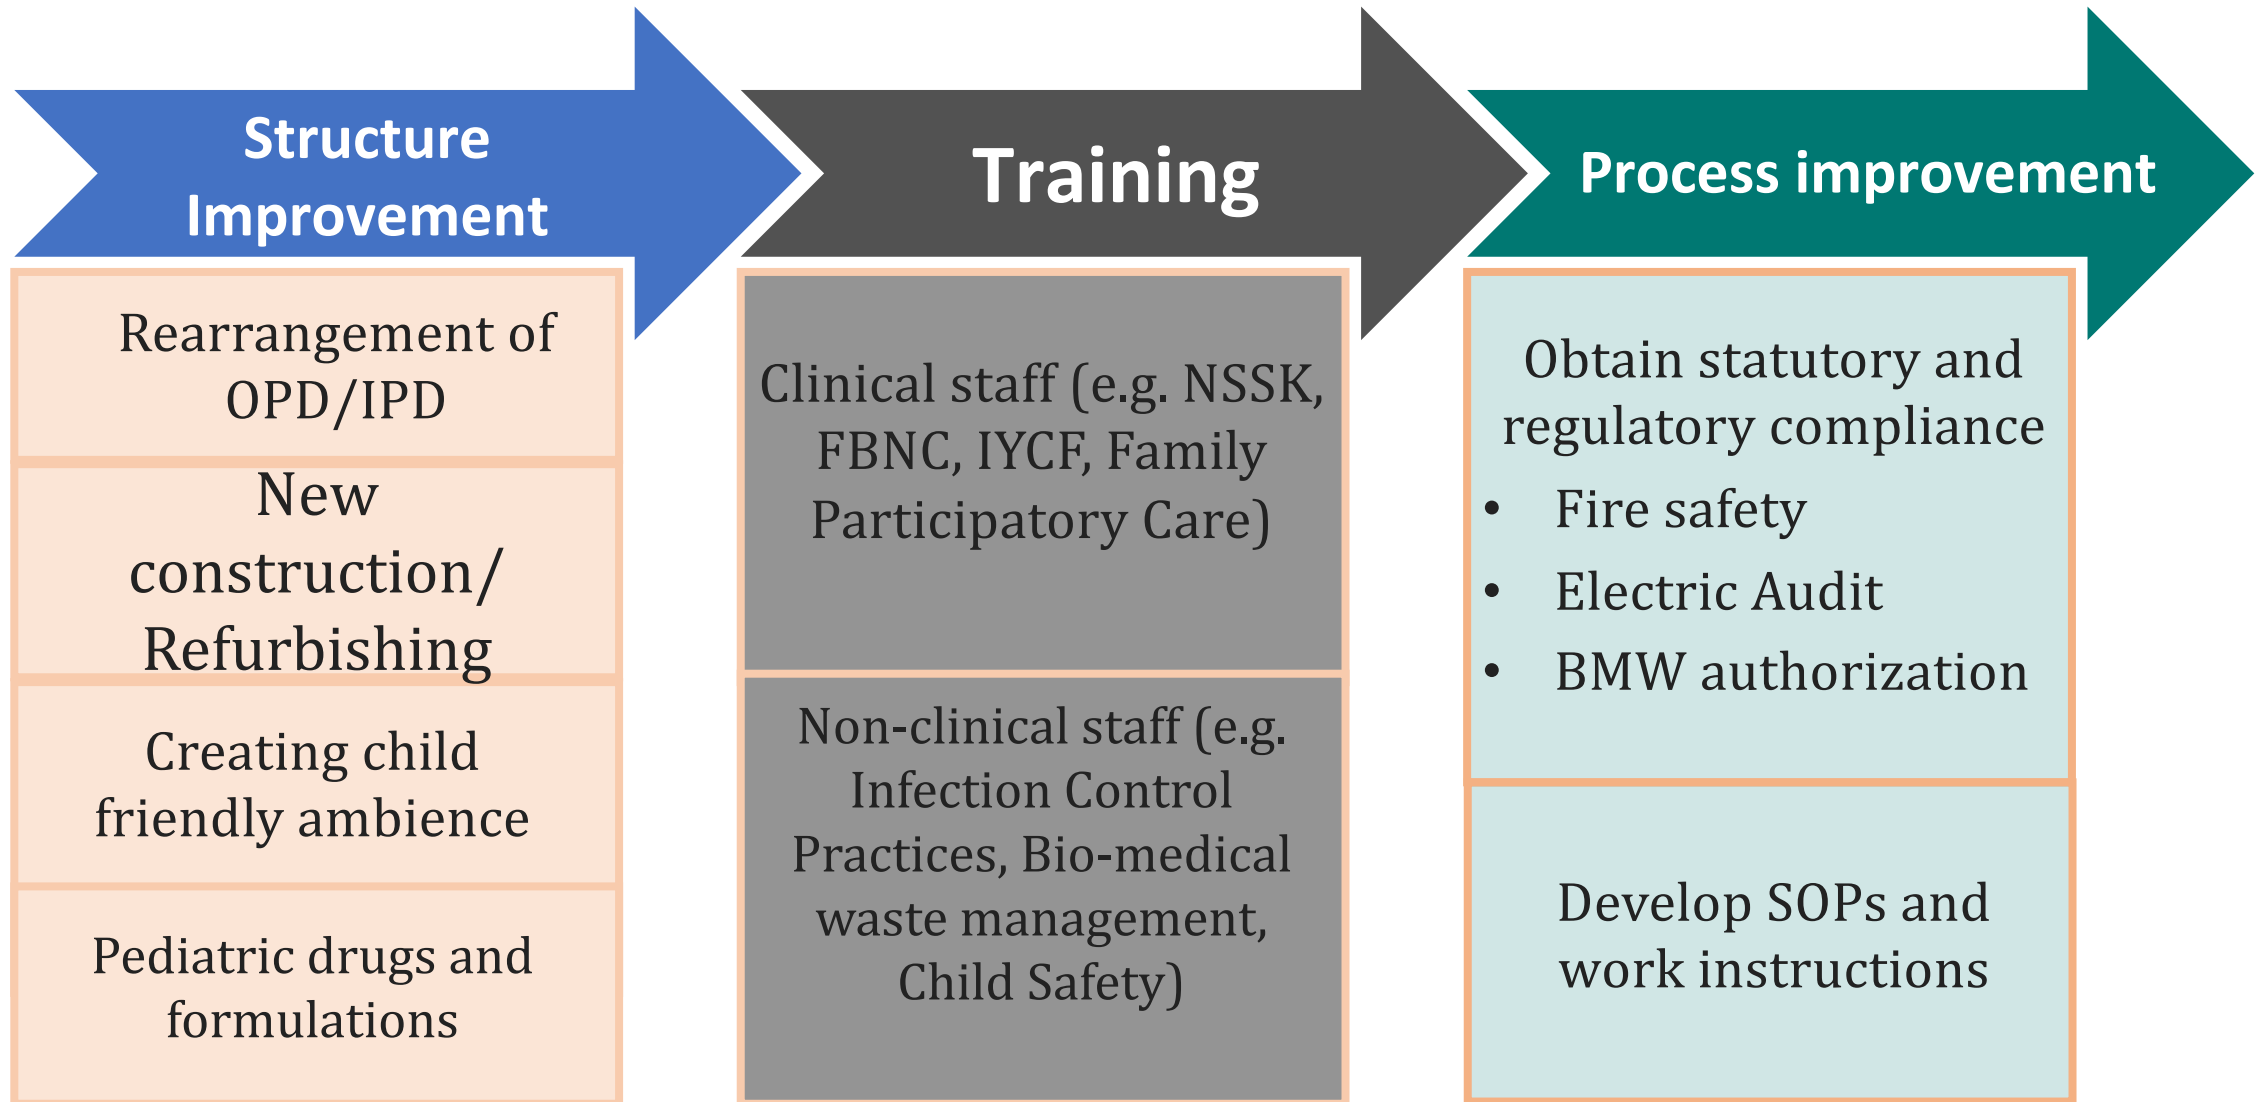

(Rajesh Bhushan)

Annexure					
(Ref. DO. No. Z- 18015/26/2020-NHM-II, dated 22 nd September)					
Targets for NQAS certification of Public Health Facilities					
(Denominator – Number of Institutions as per RHS 2019-20)					
Level of Health Facilities	Cumulative Certified FY 2021-22 (Percentage)	Cumulative Certified FY 2022-23 (Percentage)	Cumulative Certified FY 2023-24 (Percentage)	Cumulative Certified FY 2024-25 (Percentage)	Cumulative Certification FY 2025-26 (Percentage)
1.District Hospital	40	50	60	70	75
2.Sub-district Hospital	12	25	40	50	60
3.Community Health Centre	12	25	40	50	60
4.Primary Health Centre	12	25	40	50	60
5.Urban Primary Health Centre	12	25	40	50	60
6.HWC (SC)	2	10	20	40	60

Target for NQAS certification

DO letter from Sec (HFW)

Undertaking improvement activities at the facility level

Roles and Responsibilities of the State

Coordinated efforts
between Child Health
and QA teams

Inclusion in the PIP
planning process

Periodic review of KPIs
on GUNAK portal

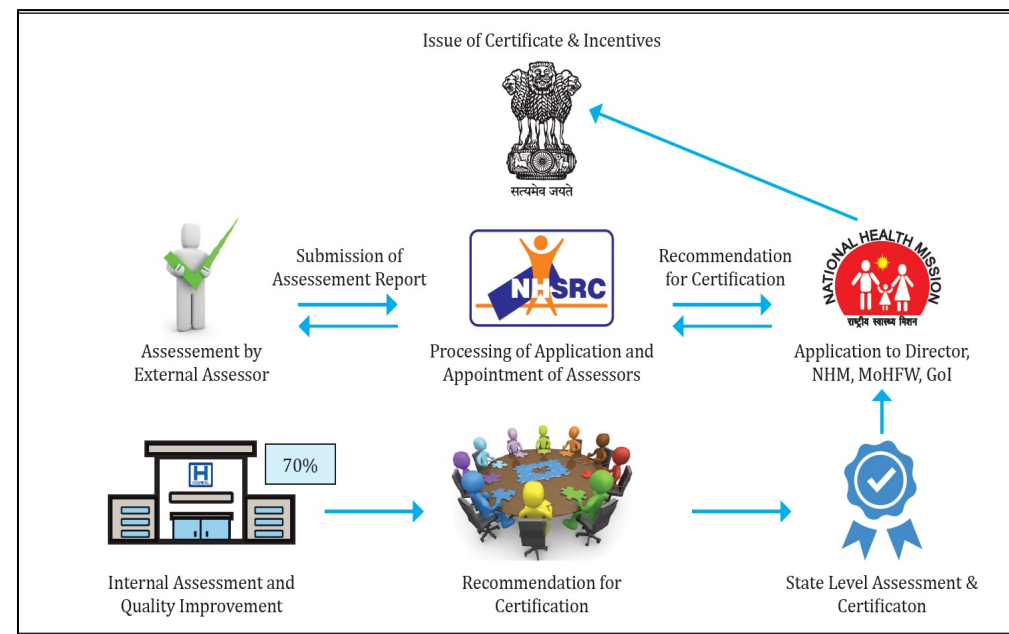

Strengthening of
process for state level
certification

Promotion of
Innovations to address
the challenges followed
by upload in the
innovation portal

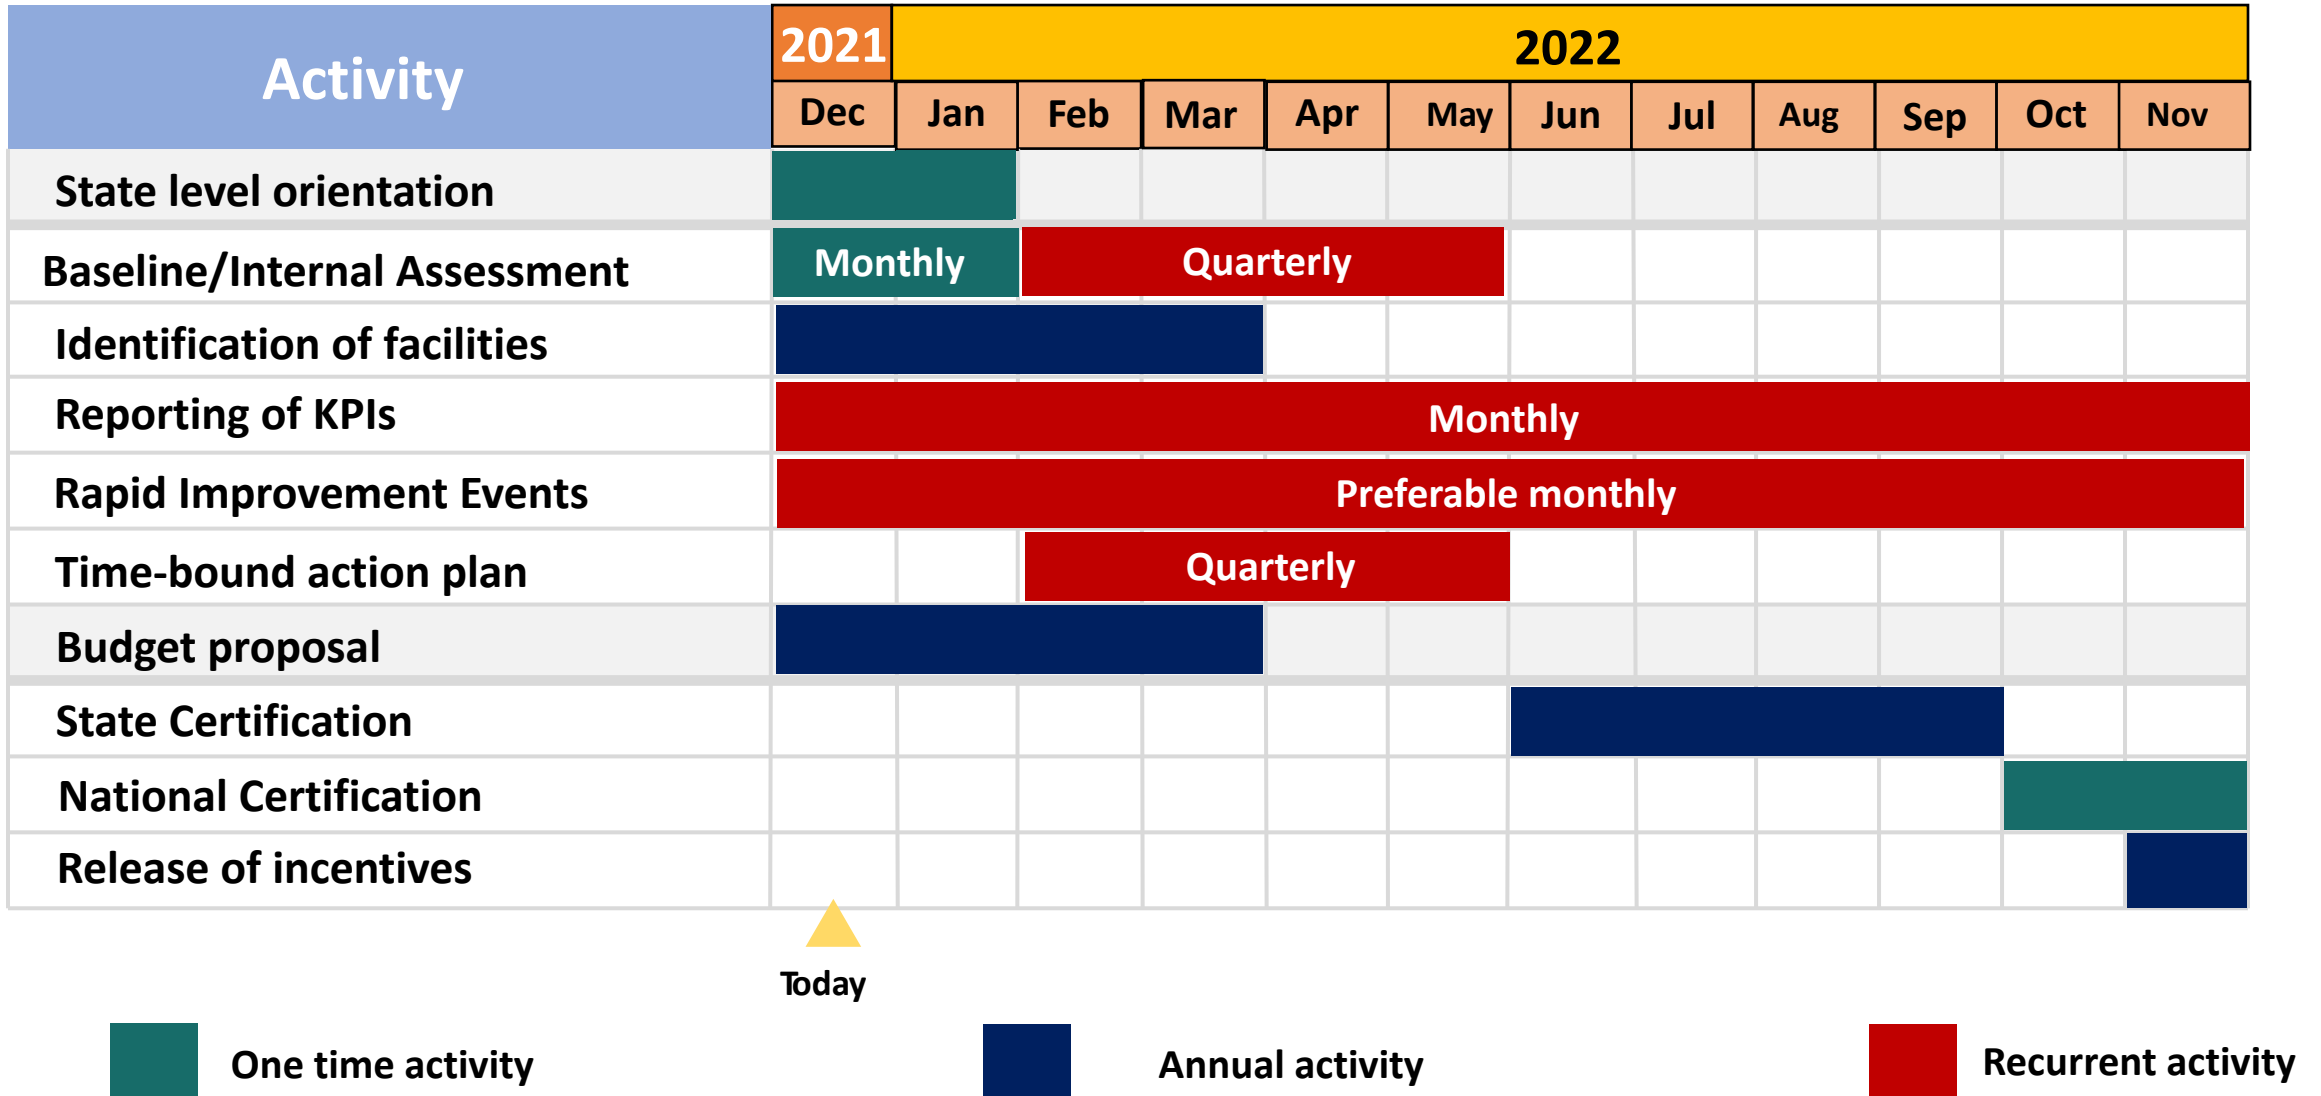

Timely proposal and
disbursement of
incentives at facility

National level certification

- On attainment of state certification, the facility must aspire for National certification
- Ensure submission of surveillance assessment reports in subsequent years after the certification

Time-bound action plan

Thank You
