Subject: Suggestion for topics to include in Online Lecture Series of Standard Treatment Guidelines.

Dear Sir | Madam,

Please refer NHSRC's letter no NHSRC/12-13/QI/01/LS, dated on 12th September 2022 regarding Online Lecture Series on Standard Treatment Guidelines. This lecture series was started on 17th September' 2022 for strengthening the adherence to clinical protocols at public healthcare facilities. We have received feedback from a large number of participants to continue the series further.

For making this lecture series more meaningful and contributory, please suggest the topics, which could be included in the lecture series. You may also discuss with the facility in-charges, clinicians, and nursing staff to include their perspectives and needs.

With regards

Yours sincerely

(J N Srivastava)
Advisor, QPS
