

Status of NQAS Certification in Aspirational Blocks

Dr Chinmayee Swain
Sr. Consultant –QPS, NHSRC

Rationale

- Aspirational Block Programme is mainly focused on :
-

- a) Improving Maternal & Child Health
 - b) Early diagnosis and complete treatment for Tuberculosis
 - c) **Health System strengthening through National Quality Assurance Standards**
 - d) **Screening and management of NCDs such as Hypertension & Diabetes**
- To know the status as on September 2023
 - To develop a time-bound action plan

NQAS

- National Quality Assurance Framework for public health facilities, emphasizing four key approaches:

1. **Organizational Framework** for Quality through establishing a structure for quality from the national level to the facility level
2. **Standards of Service Delivery and Patient Care** by defining and adhering to service delivery & patient care standards
3. **Continuous Assessments** against Standards with regular evaluation of services against the set standards
4. **Improvement through Gap Closure** through addressing the gaps, and implementing opportunities for improvement.

Indicators under Aspirational Block Programme

- NITI Aayog identified 500 blocks for improvement, focusing on **39** indicators
- For Health & Nutrition: **7** indicators
- Percentage of National Quality Assurance Standards (NQAS) certified facilities in the block.
- Percentage of person screened for Hypertension against targeted population in the block.
- Percentage of person screened for Diabetes against targeted population in the block.
