D. O. No. NHSRC/13-14/QI/01/QAP
Date: 15 October, 2024

Dear Madam,

Please refer to the DO letter no: Z-18015/13/2023-NHM dated 3rd February 2024, of Secretary (Health), Govt of India, urging the states to achieve 50% NQAS certification of public health facilities by 2025 and 100% NQAS certification of public health facilities by the year 2026.

For meeting the above-mentioned targets, we have conducted a trend analysis of the NQAS certification in your State, findings are given below:

- The overall percentage of NQAS in the state against HDI 2022-23 is 12% only.
- The progress of District Hospital is 16%, Sub-District Hospital is nil, Community Health Centre is 2%, Primary Health Centre 5%, Urban Primary Health Centre is 30% and AAM-SC is 13%.
- It has also been observed that the numbers of state certified UPHC have declined in the last quarter.

I would like to urge the state of Odisha to take up the NQAS certification for the health facilities in mission mode. All health facilities must undergo State level NQAS certification initially and 50% of State level certified facilities need to be converted into Nationally NQAS certified within six months of attaining the State certification. Expected quarter wise projection to achieve the NQAS certification is attached as Annexure-I.

I believe that with a concerted effort, we can achieve NQAS certification for the health facilities, thereby significantly elevating the quality of healthcare services provided to our community. I look forward to your positive response.

For any assistance to facilitate this important initiative, Dr.Neha Garg - Director, NHM (Email: nehagarg.irs@gov.in, Phn no. 011-23061360) from MoHFW/ Dr.J.N.Srivastava - Advisor, QPS (Email: j.n.srivastava@nhsrcindia.org, Phn no. 011-26108983) from NHSRC may please be contacted.

With regards.

Yours sincerely,

AP

Dear Madam,

Please refer to the DO letter no: Z-18015/13/2023-NHM dated 3rd February 2024, of Health Secretary, Govt of India, urging the states to achieve 50% NQAS certification of public health facilities by 2025 and 100% NQAS certification of public health facilities by the year 2026.

For meeting the above-mentioned targets, we have conducted a trend analysis of the NQAS certification in your State, findings are given below:

- The overall percentage of NQAS in the state against HDI 2022-23 is 15% only.
- The progress of District Hospital is 100%, Sub-District Hospital 40%, Community Health Centre is 17%, Primary Health Centre 59%, Urban Primary Health Centre is 17% and AAM-SC is 6%
- It has also been observed that the numbers of state certified CHC and UPHC have declined in the last quarter.

I would like to urge the State of Telangana to take up the NQAS certification for the health facilities in mission mode. All health facilities must undergo State level NQAS certification initially and 50% of State level certified facilities need to be converted into Nationally NQAS certified within six months of attaining the State certification. Expected quarter wise projection to achieve the NQAS certification is attached as Annexure-I.

I believe that with a concerted effort, we can achieve NQAS certification for the health facilities, thereby significantly elevating the quality of healthcare services provided to our community. I look forward to your positive response.

D. O. No. NHSRC/13-14/QI/01/QAP
Date: 15 October, 2024

Respected Sir,

Please refer to the DO letter no: Z-18015/13/2023-NHM dated 3rd February 2024, of Health Secretary, Govt of India, urging the states to achieve 50% NQAS certification of public health facilities by 2025 and 100% NQAS certification of public health facilities by 2026.

Considering the above, we have conducted a trend analysis of NQAS certification in your State, findings are given below:

- The overall percentage of NQAS in the State against HDI 2022-23 is 4% only.
- The progress of District Hospital is 70%, Community Health Centre is 11%, Primary Health Centre 1%, Urban Primary Health Centre is 1% and AAM-SC is 4%.

I would like to urge the State of Uttar Pradesh to take up the NQAS certification for the health facilities in mission mode. All health facilities must undergo State level NQAS certification initially and 50% of State level certified facilities need to be converted into Nationally NQAS certified within six months of attaining the State certification. An expected quarter wise projection to achieve the NQAS certification is attached as Annexure-I.

I believe that with a concerted effort, we can achieve NQAS certification for the health facilities, thereby significantly elevating the quality of healthcare services provided to our community. I look forward to your positive response.

For any assistance to facilitate this important initiative, Dr.Neha Garg - Director, NHM (Email: nehagarg.irs@gov.in, Phn no. 011-23061360) from MoHFW/ Dr.J.N.Srivastava - Advisor, QPS (Email: j.n.srivastava@nhsrccindia.org, Phn no. 011-26108983) from NHSRC may please be contacted.

With regards. Yours sincerely,

(Aradhana Patnaik)

D. O. No. NHSRC/13-14/QI/01/QAP
Date: 15 October 2024

Respected Sir,

Please refer to the DO letter no: Z-18015/13/2023-NHM dated 3rd February 2024, of Health Secretary, Govt of India, urging the states to achieve 50% NQAS certification of public health facilities by 2025 and 100% NQAS certification of public health facilities by the year 2026.

For meeting the above-mentioned targets, we have conducted a trend analysis of the NQAS certification in your State, findings are given below:

- The overall percentage of NQAS in the State against HDI 2022-23 is 5% only.
- The progress of District Hospital is 73%, Sub District Hospital is 0%, Community Health Centre is 9%, Primary Health Centre 14%, Urban Primary Health Centre is 48% and AAM-SC is 3%.
- It has also been observed that numbers of state certified DH, SDH and CHC have declined in the last two quarters.

I would like to urge the State of Chhattisgarh to take up the NQAS certification for the health facilities in mission mode. All health facilities must undergo State level NQAS certification initially and 50% of State level certified facilities need to be converted into Nationally NQAS certified within six months of attaining the State certification. Expected quarter wise projection to achieve the NQAS certification is attached as Annexure-I.

I believe that with a concerted effort, we can achieve NQAS certification for the health facilities, thereby significantly elevating the quality of healthcare services provided to our community. I look forward to your positive response.

For any assistance to facilitate this important initiative, Dr.Neha Garg - Director, NHM (Email: nehagarg.irs@gov.in, Phn no. 011-23061360) from MoHFW/ Dr.J.N.Srivastava - Advisor, QPS (Email: j.n.srivastava@nhsrindia.org, Phn no. 011-26108983) from NHSRC may please be contacted.

With regards.

Yours sincerely,

(Aradhana Patnaik)

Dear Sir,

Please refer to the DO letter no: Z-18015/13/2023-NHM dated 3rd February 2024, of Secretary (Health), Govt. of India, urging the states to achieve 50% NQAS certification of public health facilities by 2025 and 100% NQAS certification of public health facilities by the year 2026.

For meeting the above-mentioned targets, we have conducted a trend analysis of the NQAS certification in your State, findings are given below:

- The overall percentage of NQAS in the State against HDI 2022-23 is 16% only.
- The progress of District Hospital is 25%, Sub District Hospital is 4%, Community Health centre is 3%, Primary Health Centre 32%, Urban Primary Health Centre is 41% and AAM-SC is 12%.

I would like to urge the State of Gujarat to take up the NQAS certification for the health facilities in mission mode. All health facilities must undergo State level NQAS certification initially and 50% of State level certified facilities need to be converted into Nationally NQAS certified within six months of attaining the State certification. Expected quarter wise projection to achieve the NQAS certification is attached as Annexure-I.

I believe that with a concerted effort, we can achieve NQAS certification for the health facilities, thereby significantly elevating the quality of healthcare services provided to our community. I look forward to your positive response.

Nirman Bhawan, New Delhi-110011

D. O. No. NHSRC/13-14/QI/01/QAP
Date: 15th October, 2024

Dear Sir,

Please refer to the DO letter no: Z-18015/13/2023-NHM dated 3rd February 2024, of Health Secretary, Govt of India, urging the states to achieve 50% NQAS certification of public health facilities by 2025 and 100% NQAS certification of public health facilities by the year 2026.

For meeting the above-mentioned targets, we have conducted a trend analysis of the NQAS certification in the States and UTs.

- The overall percentage of NQAS in the State against HDI 2022-23 is 90% (State certification- 71.56% and National Certification- 15.68%) only.
- The progress of NQAS National certification is 100% for District and Sub-District Hospitals. For Community Health Centres, 25% have achieved State certification and 75% have achieved National certification. Primary Health Centres have attained 75% total NQAS certification, with 16% being State certified and 58% National certified. For AAM Sub-Centres, 93% are NQAS certified, of which 42% are State certified and 51% are National certified. However, Urban Primary Health Centres have not yet achieved any NQAS certification.
- It has also been observed that the numbers of state certified PHC have declined in the last quarter.

I would like to urge the UT of Daman & Diu and Dadra & Nagar Haveli that State level certified facilities need to be converted into Nationally NQAS certified within six months of attaining the State certification. Also, timely surveillance and recertification need to be undertaken. Expected quarter wise projection to achieve the NQAS certification is attached as Annexure-I.

I am sure that with a concerted effort, we can achieve National NQAS certification for the health facilities, thereby significantly elevating the quality of healthcare services provided to our community. I look forward to your positive response.

For any assistance to facilitate this important initiative, Dr.Neha Garg - Director, NHM (Email: nehagarg.irs@gov.in, Phn no. 011-23061360) from MoHFW/ Dr.J.N.Srivastava - Advisor, QPS (Email: j.n.srivastava@nhsrcindia.org, Phn no. 011-26108983) from NHSRC may please be contacted.

With regards.

Yours sincerely,

(Aradhana Patnaik)

D. O. No. NHSRC/13-14/QI/01/QAP
Date: 15 October, 2024

Dear Madam,

Please refer to the DO letter no: Z-18015/13/2023-NHM dated 3rd February 2024, of Secretary (Health), Govt of India, urging the states to achieve 50% NQAS certification of public health facilities by 2025 and 100% NQAS certification of public health facilities by the year 2026.

For meeting the above-mentioned targets, we have conducted a trend analysis of the NQAS certification in your State, findings are given below:

- The overall percentage of NQAS in the State against HDI 2022-23 is 5% only.
- The progress of District Hospital is 17%, Sub-District Hospital is 0%, Community Health Centre is 0%, Primary Health Centre 23%, Urban Primary Health Centre is 22% and AAM-SC is 0%.
- It has also been observed that the numbers of state certified DH and UPHC have declined in the last quarter.

I would like to urge the State of Mizoram to take up the NQAS certification for the health facilities in mission mode. All health facilities must undergo State level NQAS certification initially and 50% of State level certified facilities need to be converted into Nationally NQAS certified within six months of attaining the State certification. Expected quarter wise projection to achieve the NQAS certification is attached as Annexure-I.

I believe that with a concerted effort, we can achieve NQAS certification for the health facilities, thereby significantly elevating the quality of healthcare services provided to our community. I look forward to your positive response.

Date: 15 October, 2024

Respected Sir,

Please refer to the DO letter no: Z-18015/13/2023-NHM dated 3rd February 2024, of Secretary (Health), Govt of India, urging the states to achieve 50% NQAS certification of public health facilities by 2025 and 100% NQAS certification of public health facilities by the year 2026.

For meeting the above-mentioned targets, we have conducted a trend analysis of the NQAS certification in your State, findings are given below:

- The overall percentage of NQAS in the State against HDI 2022-23 is 18% only.
- The progress of District Hospital is 92%, Sub District Hospital is 30%, Community Health Centre is 17%, Primary Health Centre 53%, Urban Primary Health Centre is 12% and AAM-SC is 14%.

I would like to urge the State of Andhra Pradesh to take up the NQAS certification for the health facilities in mission mode. All health facilities must undergo State level NQAS certification initially and 50% of State level certified facilities need to be converted into Nationally NQAS certified within six months of attaining the State certification. Expected quarter wise projection to achieve the NQAS certification is attached as Annexure-I.

I believe that with a concerted effort, we can achieve NQAS certification for the health facilities, thereby significantly elevating the quality of healthcare services provided to our community. I look forward to your positive response.

For any assistance to facilitate this important initiative, Dr.Neha Garg - Director, NHM (Email: nehagarg.irs@gov.in, Phn no. 011-23061360) from MoHFW/ Dr.J.N.Srivastava - Advisor, QPS (Email: j.n.srivastava@nhsrcindia.org, Phn no. 011-26108983) from NHSRC may please be contacted.

D. O. No. NHSRC/13-14/QI/01/QAP
Date: 15 October 2024

Dear Sir,

Please refer to the DO letter no: Z-18015/13/2023-NHM dated 3rd February 2024, of Secretary (Health), Govt of India, urging the states to achieve 50% NQAS certification of public health facilities by 2025 and 100% NQAS certification of public health facilities by the year 2026.

For meeting the above-mentioned targets, we have conducted a trend analysis of the NQAS certification in your State, findings are given below:

- The overall percentage of NQAS in the State against HDI 2022-23 is 0.3% only.
- The progress of District Hospital is 0%, Sub-District Hospital is 0%, Community Health Centre is 0%, Primary Health Centre 2%, Urban Primary Health Centre is 0% and AAM-SC is 0%.

I would like to urge the State of Meghalaya to take up the NQAS certification for the health facilities in mission mode. All health facilities must undergo State level NQAS certification initially and 50% of State level certified facilities need to be converted into Nationally NQAS certified within six months of attaining the State certification. Expected quarter wise projection to achieve the NQAS certification is attached as Annexure-I.

I believe that with a concerted effort, we can achieve NQAS certification for the health facilities, thereby significantly elevating the quality of healthcare services provided to our community. I look forward to your positive response.

For any assistance to facilitate this important initiative, Dr.Neha Garg - Director, NHM (Email: nehagarg.irs@gov.in, Phn no. 011-23061360) from MoHFW/ Dr.J.N.Srivastava - Advisor, QPS (Email: j.n.srivastava@nhsrcindia.org, Phn no. 011-26108983) from NHSRC may please be contacted.

With regards-

Yours sincerely,

Dear Sir,

Please refer to the DO letter no: Z-18015/13/2023-NHM dated 3rd February 2024, of Health Secretary, Govt of India, urging the states to achieve 50% NQAS certification of public health facilities by 2025 and 100% NQAS certification of public health facilities by the year 2026.

For meeting the above-mentioned targets, we have conducted a trend analysis of the NQAS certification in your State, findings are given below:

- The overall percentage of NQAS in the State against HDI 2022-23 is 17% only.
- The progress of District Hospital is 77%, Sub- Divisional Hospital is 14%, Community Health Centre is 18%, Primary Health Centre 13%, Urban Primary Health Centre is 3% and AAM-SC is 17%.
- It has also been observed that the numbers of state certified SDH have declined in the last quarter.

I would like to urge the State of Madhya Pradesh to take up the NQAS certification for the health facilities in mission mode. All health facilities must undergo State level NQAS certification initially and 50% of State level certified facilities need to be converted into Nationally NQAS certified within six months of attaining the State certification. Expected quarter wise projection to achieve the NQAS certification is attached as Annexure-I.

I believe that with a concerted effort, we can achieve NQAS certification for the health facilities, thereby significantly elevating the quality of healthcare services provided to our community. I look forward to your positive response.

D. O. No. NHSRC/13-14/QI/01/QAP
Date: 15th October, 2024

Respected Sir,

Please refer to the DO letter no: Z-18015/13/2023-NHM dated 3rd February 2024, of Secretary (Health), Govt of India, urging the states to achieve 50% NQAS certification of public health facilities by 2025 and 100% NQAS certification of public health facilities by the year 2026.

For meeting the above-mentioned targets, we have conducted a trend analysis of the NQAS certification in your State, findings are given below:

- The overall percentage of NQAS in the state against HDI 2022-23 is 12% only.
- The progress of District Hospital is 64%, Sub-District Hospital 14%, Community Health Centre is 5%, Primary Health Centre 29%, Urban Primary Health Centre is 24% and AAM-SC is 8%.

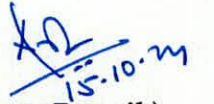

I would like to urge the State of Haryana to take up the NQAS certification for the health facilities in mission mode. All health facilities must undergo State level NQAS certification initially and 50% of State level certified facilities need to be converted into Nationally NQAS certified within six months of attaining the State certification. Expected quarter wise projection to achieve the NQAS certification is attached as Annexure-I.

I believe that with a concerted effort, we can achieve NQAS certification for the health facilities, thereby significantly elevating the quality of healthcare services provided to our community. I look forward to your positive response.

For any assistance to facilitate this important initiative, Dr.Neha Garg - Director, NHM (Email: nehagarg.irs@gov.in, Phn no. 011-23061360) from MoHFW/ Dr.J.N.Srivastava - Advisor, QPS (Email: j.n.srivastava@nhsrcindia.org, Phn no. 011-26108983) from NHSRC may please be contacted.

With regards.

Yours sincerely,

(Aradhana Patnaik)
