Subject: Online Lecture Series on Standard Treatment Guidelines

Dear ma'am / Sir,

Good Health and Wellbeing is one of the Sustainable Development Goals and is also the fundamental right of every human being. Patients, when they visit health facilities for curative, preventive and promotive care, expect to be treated as per prevalent scientific knowledge and practice with dignity and respect. But often there are many factors which hinder the progress to expected outcomes like missed diagnosis, inappropriate and unsafe treatment.

To fill the gap between the clinical practice and the evidences, National Health Systems Resource Centre (NHSRC) in collaboration with Delhi Society for Promotion of Rational Use of Drugs (DSPRUD), New Delhi is launching "3rd online Series of Lectures on Standard Treatment Guidelines (STGs)" on every 3rd Saturday of month, starting from December 2024 onwards.

For adherence to the clinical protocols at the public healthcare facilities, the sessions will dwell into the concept of Standard Treatment Guidelines and treatment protocol of common clinical conditions. Duration of each session is planned for approximately two and half hours. In the beginning, it is proposed to administer a pre-training questionnaire, followed by post training evaluation as well. The participants would be issued with a Certificate of participation.

In this series, Inaugural Webinar on **Adult Vaccines in India and Management of AEFI** is planned on 21st December 2024. The registration for the webinar would commence at 15:00 hours on the same day.

You are requested to disseminate the information to all public healthcare facilities and available clinicians and nursing professionals may be encouraged to join the webinar. Agenda of the session is placed at **Annexure 'A'**.

Webex link for the first online lecture is given below -

Date: 21.12.2024

Time: 3:00 PM to 5:30 PM

Warm regards,

Yours Sincerely

Maj Gen (Prof) Atul Kotwal
