# AAM-SHC NQAS Certification Progress U.P.

# Strategies for NQAS Certification

Strategies to Achieve Target	
<b><i>Creating Pool of Internal Assessors</i></b>	Engagement of other programs person to increase the pool of Internal Assessors.
<b><i>Focused on Internal Assessment</i></b>	IA of all the Facilities and ensure maximum registration on SaQsham Portal.
<b><i>Nomination of Quality Nodals</i></b>	Nomination and Participation of District and Block Quality Nodal in Quality program.
<b><i>District Wise Target Distribution</i></b>	At least, 10-12 Applications submission from each District per month. Initially focusing on previously awarded Kyakalp Facilities
<b><i>Close Monitoring Progress</i></b>	Allotment of 18 Divisions in between the 4 State Consultant for Effective Progress Review, Progress of Documentation Upload, Better Follow-up and Coordination, and to address any Grievances or other issues.
<b><i>Training and Capacity Building of Other Programs Person</i></b>	Initiated the involvement of counterparts of different program division in Quality certification through the training and capacity building of respective state , Division & district consultants/ coordinators of other program (CP,MH, Urban, NP etc.)
<b><i>Microplanning at Facility Level</i></b>	Facility wise micro planning and setting the timeline of gap closure with submission of application for the NQAS certification
<b><i>Extensive Review Mechanism and Experience Sharing</i></b>	Exclusively fortnightly/Monthly review meeting of CMOs/ACMOs/DPMs/DCPM/DCQA and other officials under the chairmanship of PS/MD/AMD from State Level. At Division level

# Challenges in implementation of NQAS

- ☐ Inadequate number of Internal Assessors
- ☐ State EDL is not as per GOI norms . State included only 84 Drugs in EDL . Most of external assessor's are not considering the state EDL
- ☐ Network connectivity is poor in some remote areas
- ☐ Most of the PHCs are functioning with 04 Departments only . Checklist of PHC may be customized.
- ☐ SaQsham Portal issues ( Dashboard)
- ☐ Only regional level external assessors to be deployed for the assessment to reduce the language barrier.

## Way Forward

### ***Increasing Pool of Internal Assessors***

State-level NQAS internal training to be organize at State Level(4 Batches) and division Level (18) in FY2025-26 to create State level pool 1000 state internal assessors. Once they trained and certified, They help in the Conduct internal assessments, Mentor facilities for quality improvement, Facilitate readiness for national certification.

### ***IT enabled NQAS Dashboard***

Dashboard for Analysis at State, District, Block and Facility level..

### ***Integration on eKavach Portal***

SC checklist in e-Kavach portal to boost the process of internal , state assessment and real time progress update.

### ***Training and Capacity Building***

To complete 100% training of CHOs and FLWs on 12 extended service packages.

### ***Prioritizing the Facilities***

Identification of Potential Health Facilities scoring more than 70% for NQAS Certification and analysis of Deferred Facilities to improve the NQAS Score.

### ***Block Wise Target Distribution***

To achieved the 50% target till Dec.25 strategies to upload the NOAS application on SaOsham portal one

Thanks
