

Guideline on display of patient safety video

- 1) The states/UTs can upload the patient safety video on their respective states/UTs' website.
- 2) The video can be run in the facilities registration counter, waiting areas, wards, IEC Corner, Pharmacy where there is audio-video aid available.
- 3) The video can also be uploaded on the state's social accounts like Twitter, LinkedIn etc.

The options for customization are as follows:

- 1) State can translate the audio or the subtitle into regional/local languages.
- 2) While translating, original intent of the video should remain the same.
- 3) State must not change any of the pictures, or logos.
- 4) State can add their logos in the videos.
